The Mr. Smith Foundation was founded in loving memory of a young man named Maurice **Smith** Chappell who left this world one month shy of turning 21 years of age. We are committed to the prevention and cure of epilepsy and a positive quality of life for everyone who lives with seizure disorders. We want to focus mainly on children who suffer from this debilitating disease. We want to focus on broadening and strengthening of research, providing individuals and their families with easy access to reliable information. It would be Maurice's wish and his dream for us to carry on his name and dedicate our lives to help improve the quality of life for people affected by epilepsy.
